

Status/Progress Report

Project:

A platform of errand delivery Service in the same city based on crowdsourcing model

Status/Progress Report

Project Name: A platform of errand delivery Service in the same city based on crowdsourcing model Team Member Name: Ying He Date: May 7, 2019 Reporting Period: the end of the project
Work completed this reporting period: Back-end programming completed. We have implemented the function of order status modification, order evaluation, personal information. Test completed.
Work to complete next reporting period: Sorting documents.
What's going well and why: Back-end programming completed, we have implemented all functions.
What's not going well and why: We have never learned of system test, so we took time of learning black-box test and white-box test.
Suggestions/Issues: We took time of learning how to test our product and it leaded to plan delay.
Project changes Because of plan delay, we reduced the time for document sorting.
