Status/Progress Report

Project:

A platform of errand delivery Service in the same city based on crowdsourcing model

Status/Progress Report

Project Name: A platform of errand delivery Service in the same city based on crowdsourcing model
Team Member Name: Cai Congyu
Date: 1.4.2019
Reporting Period: Finish the design and prepared work

Work completed this reporting period:
Prototype design
UI design
Database design
Making norm
E-R diagram
Data dictionary

Work to complete next reporting period:
Registration
Login
Create Order
Order display
Order Status Modification and Query
Order Evaluation

What's going well and why:
Prototype design is going quite well in this period, because clients are quite like this kind of display. They give a lot of advice on my design. And I changed the prototype three times to meet the satisfaction of clients.

What's not going well and why:
I am not familiar with database, so it is quite hard for me to design the database. Thanks to the help of my supervisors, I finish my database design.

Suggestions/Issues:
I should learn some knowledge of database to help my development in next period.

Project changes

The change of personal information function has been deleted.
