Status/Progress Report

Project:

A platform of errand delivery Service in the same city based on crowdsourcing model

Status/Progress Report

Project Name: A platform of errand delivery Service in the same city based on crowdsourcing model
Team Member Name: Congyu Cai
Date: 12.20.2018
Reporting Period: Finishing proposal

Work completed this reporting period:
Stakeholder register
Client Communication
Requirement Matrix
Kick-off Meeting
Expectations Management Matrix
Business Case
Scope Statement
Stakeholder management Strategy
Project Description

Work to complete next reporting period:
Prototype design of Android Application
UI design
Business Process Diagram
Database Design
Making Norms
E-R diagram
Data Dictionary

What's going well and why:
Stakeholder register and Stakeholder management Strategy are quite good, because anyone in our group is accessible. We can communicate with each other smoothly and we can know others' strengths and weaknesses.

What's not going well and why:
We can not communication with client frequently. So there are some misunderstand between us. And of course, the client communication is not well. Additionally, Requirement Matrix and Scope Statement is not well, too. Because clients may not sure their needs, and they change needs quite frequently.

Suggestions/Issues:

1.Using prototype to let the clients know what needs is they really needs.

2. Communicate with clients more frequently

Project changes

The verification code function and location function have been detected.
